3.1 Substances

not applicable

Ferdinand Bilstein GmbH + Co. KG

Date printed 03.03.2022, Revision 03.03.2022

Version 02. Supersedes version: 01 Page 2 / 10

| 3.2 | 2 Mixtures The product is a mixture. | |
|-----|---|--|
| | Comment on component parts | No dangerous components. Substances of Very High Concern - SVHC: substances are not contained or are below 0.1%. |
| SEC | TION 4: First aid measures | |
| 4.1 | Description of first aid measures | |
| | General information | Change soaked clothing. |
| | Inhalation | Ensure supply of fresh air. In the event of symptoms seek medical treatment. |
| | Skin contact | When in contact with the skin, clean with soap and water. Consult a doctor if skin irritation persists. |
| | Eye contact | Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. |
| | Ingestion | Seek medical advice immediately. Do not induce vomiting. |
| 4.2 | Most important symptoms and eff | ects, both acute and delayed |
| | | Oil acne/folliculitis signs and symptoms may include formation of black pustules and spots on the skin of exposed areas. Ingestion may result in nausea, vomiting and/or diarrhoea. Local necrosis is evidenced by delayed onset of pain and tissue damage a few hours following injection. |
| 4.3 | Indication of any immediate medio | cal attention and special treatment needed |
| | | Treat symptomatically. Forward this sheet to your doctor. High pressure injection injuries require prompt surgical inter-vention and possibly steroid therapy, to minimise tissue dam-age and loss of function. Because entry wounds are small and do not reflect the seri-ousness of the underlying damage, surgical exploration to determine the extent of involvement may be necessary. Local anaesthetics or hot soaks should be avoided because they can contribute to swelling, vasospasm and ischaemia. Prompt surgical decompression, debridement and evacuation of for-eign material should be performed under general anaesthet-ics, and wide exploration is essential. |
| SEC | TION 5: Fire-fighting measures | |
| 5.1 | Extinguishing media | |
| | Suitable extinguishing media | Carbon dioxide. Water spray jet. Dry powder. Foam. |
| | Extinguishing media that must not be used | Full water jet. |
| 5.2 | Special hazards arising from the s | substance or mixture |
| | | Risk of formation of toxic pyrolysis products. |
| 5.3 | Advice for firefighters | |
| | 5 | Use self-contained breathing apparatus. |
| | | Fire residues and contaminated firefighting water must be disposed of in accordance within the local regulations. |

| SEC | TION 6: Accidental release measur | res |
|-----|---|---|
| 6.1 | Personal precautions, protective equipment and emergency procedures | |
| | | High risk of slipping due to leakage/spillage of product. Forms slippery surfaces with water. |
| 6.2 | Environmental precautions | |
| | | Do not discharge into the drains/surface waters/groundwater. Prevent spread over a wide area (e.g. by containment or oil barriers). |
| 6.3 | Methods and material for contain | ment and cleaning up |
| | | Take up mechanically. Dispose of absorbed material in accordance within the regulations. |
| 6.4 | Reference to other sections | |
| | | See SECTION 8+13 |
| SEC | TION 7: Handling and storage | |
| 7.1 | Precautions for safe handling | |
| | | Use only in well-ventilated areas. No special measures necessary if used correctly. |
| | | The product is combustible. |
| | | Wash hands before breaks and after work. Use barrier skin cream. Cloths contaminated with product should not be kept in trouser pockets. Do not eat, drink or smoke when using this product. |
| 7.2 | Conditions for safe storage, inclu | ding any incompatibilities |
| | | Keep only in original container. |
| | | Do not store together with oxidizing agents. |
| | | Keep container tightly closed. Keep away from frost. Keep in a cool place. Store in a dry place. |
| 7.3 | Specific end use(s) | |
| | | See product use, SECTION 1.2 |

SECTION 8: Exposure controls / personal protection

8.1 Control parameters

Ingredients with occupational exposure limits to be monitored (GB)

not applicable

Ferdinand Bilstein GmbH + Co. KG

| 8.2 | Exposure controls | | |
|-----|---|--|--|
| | Additional advice on system design | Ensure adequate ventilation on workstation. General exposure limit for oil mist should be noted. Measurement methods for taking workplace measurements must meet the performance requirements of DIN EN 482. For example, recommendations are given in the IFA's list of hazardous substances. | |
| | Eye protection | If there is a risk of splashing: Safety glasses. (EN 166:2001) | |
| | Hand protection | The details concerned are recommendations. Please contact the glove supplier for further information. > 0.4 mm Nitrile rubber, >480 min (EN 374-1/-2/-3). | |
| | Skin protection | not applicable | |
| | Other | Avoid contact with eyes and skin. | |
| | Respiratory protection | Not required under normal conditions. | |
| | Thermal hazards | not applicable | |
| | Delimitation and monitoring of the environmental exposition | Comply with applicable environmental regulations limiting discharge to air, water and soil. | |

9.2 Other information

No information available.

Ferdinand Bilstein GmbH + Co. KG

Date printed 03.03.2022, Revision 03.03.2022

Version 02. Supersedes version: 01 Page 5 / 10

SECTION 10: Stability and reactivity

10.1 Reactivity

No dangerous reactions known if used as directed.

10.2 Chemical stability

Stable under normal ambient conditions (ambient temperature).

10.3 Possibility of hazardous reactions

Reactions with oxidizing agents.

10.4 Conditions to avoid

Strong heating. Sunlight

10.5 Incompatible materials

Strong oxidizing agent.

10.6 Hazardous decomposition products

No hazardous decomposition products known.

Ferdinand Bilstein GmbH + Co. KG

Date printed 03.03.2022, Revision 03.03.2022

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute oral toxicity

Product

oral, Based on the available information, the classification criteria are not fulfilled.

Acute dermal toxicity

| Product |
|--|
| dermal, Based on the available information, the classification criteria are not fulfilled. |

Acute inhalational toxicity

| P | roduct | |
|--|-----------------|---|
| in | halative, Based | on the available information, the classification criteria are not fulfilled. |
| Serious eye damage | /irritation | Slight irritant effect. Based on the available information, the classification criteria are not fulfilled. |
| Skin corrosion/irritat | tion | Slight irritant effect. Based on the available information, the classification criteria are not fulfilled. |
| Respiratory or skin s | sensitisation | Based on the available information, the classification criteria are not fulfilled. |
| Specific target organ single exposure | n toxicity — | Based on the available information, the classification criteria are not fulfilled. |
| Specific target organ repeated exposure | n toxicity — | Based on the available information, the classification criteria are not fulfilled. |
| Mutagenicity | | No mutagenous properties. Based on the available information, the classification criteria are not fulfilled. |
| Reproduction toxicit | у | Based on the available information, the classification criteria are not fulfilled. |
| Carcinogenicity | | No cancerogenic properties known Based on the available information, the classification criteria are not fulfilled. |
| Aspiration hazard | | Based on the available information, the classification criteria are not fulfilled. |
| General remarks | | |
| | | The toxicity data listed pertaining to the ingredients are intended for those working in the medicinal professions, experts for occupational health and safety and toxicologists. Remarks: Used grease may contain harmful impurities that have accumulated during use. The concentration of such harmful impurities will depend on use and they may present risks to health and the environment on disposal. ALL used grease should be handled with caution and skin contact avoided as far as possible. Remarks: High pressure injection of product into the skin may lead to local necrosis if the prod-uct is not surgically removed. |
| Information on oth | ner hazards | |
| Endocrine disrupting | g properties | Contains no ingredients with endocrine-disrupting properties. |
| Other information | | none |
| FION 12: Ecologica | l information | |

12.1 Toxicity

Product
Based on the available information, the classification criteria are not fulfilled.

Ferdinand Bilstein GmbH + Co. KG

Date printed 03.03.2022, Revision 03.03.2022

12.2 Persistence and degradability

| not determined |
|---|
| not determined |
| The product is not readily biodegradable. |
| |

12.3 Bioaccumulative potential

Contains components with the potential to bioaccumulate.

12.4 Mobility in soil

Product is immobilized by adsorption to soil particles.

12.5 Results of PBT and vPvB assessment

Based on all available information not to be classified as PBT or vPvB respectively.

12.6 Endocrine disrupting properties

Contains no ingredients with endocrine-disrupting properties.

12.7 Other adverse effects

The product is insoluble in water. Do not discharge product unmonitored into the environment.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Waste material must be disposed of in accordance with the Directive on waste 2008/98/EC as well as other national and local regulations. It is not possible to determine a waste code for this product in accordance with the European Waste Catalogue (EWC) since it is only possible to classify it according to how it is used by the customer. The waste code is to be determined within the EU in liaison with the waste-disposal operator.

Product

| | Disposal in an incineration plant in accordance with the regulations of the local authorities. In according to RoHS! |
|-------------------------|--|
| Waste no. (recommended) | 120112* spent waxes and fats |
| Contaminated packaging | |
| | Uncontaminated packaging may be taken for recycling. Uncontaminated packaging may be reused. |
| Waste no. (recommended) | 150110* packaging containing residues of or contaminated by hazardous substances 150102 |
